Training Program on Basic and Advanced Excel by Protech Savvy

A training program on Basic and Advanced Excel was conducted by Protech Savvy for the first-year students from 18th August to 23rd August 2025, between 9:00 AM and 1:30 PM. The sessions were delivered by Mr. Shibaji, the resource person for the program.

The students gained a clear understanding of various aspects of Excel. All the classes were highly practical in nature, and several assignments were given to the students to reinforce their learning.

The main objective of the training program was to equip first-year students with essential skills in Basic and Advanced Excel. The program aimed to build a strong foundation in spreadsheet management, data handling, and analytical tools, enabling students to apply Excel effectively in their academic work and future professional tasks.

Students appreciated the practical approach of the sessions, which made learning easier and more engaging. They found the assignments helpful in reinforcing concepts and improving their application skills.
