Race Course Road, Bengaluru 560001

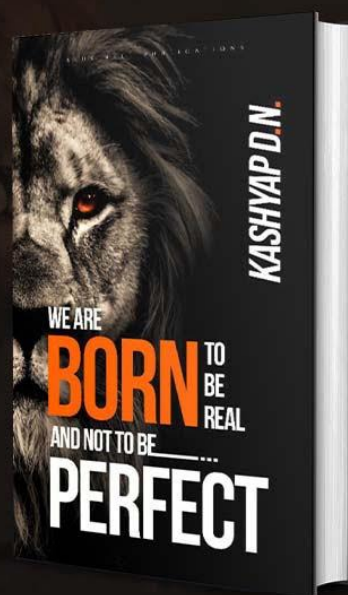

"We are born to be real and not to be perfect" is a book written by internationally recognized business consultant and dry lab scientist Mr. Kashyap D. N, also a proud alumnus of M.P. Birla Institute of Management (2006-2008 Batch). It is a need of the hour to read this book, as people need to become more civilized and transform the society we live in, which is currently filled with distractions. As people are becoming wild and cruel due to the continuous use of smartphones and social media apps. They are even ready to kill each other for dominance. There have been many instances in recent times, such as a mother killing her child in Goa, a Karnataka man killing his sister for having an affair with a boy of another religion, and a mother dying while trying to save her. In another instance, a girl was burnt alive just for rejecting a proposal in New Delhi. These kinds of crimes have increased since the introduction of 4G/5G. To understand the exact reasons why these crimes have become common in this digital era compared to a decade ago, and to find peace of mind in this crazy competitive world both online and offline, you must consider reading this book

You have got one life, live like a lion, to know
how, look forward to the worldwide launch of
the book,

**"We are born to be real and not to
be perfect"**

KASHYAP D.N.

**Launching
Worldwide Soon**
