## **Introduction:**

The NGO "Rescue Boys Foundation" is dedicated to providing comprehensive support and rehabilitation services to boys who have been rescued from various forms of exploitation, including trafficking, child labour, and abuse.

## **Overview of Activities:**

The foundation offers services tailored to the specific needs of rescued boys, including shelter, education, vocational training, psychological counselling, and legal support. The organisation also works closely with government agencies and law enforcement to ensure the safe reintegration of rescued boys into their families or communities whenever possible.

## **Impact Assessment:**

Through its holistic approach, the foundation has positively impacted boys' lives, providing them with the support and resources needed to rebuild their futures. The organisation offers various metrics, including educational attainment, vocational skill development, mental health improvements, and successful reintegration outcomes.

## **Sustainability and Future Plans:**

To ensure its long-term sustainability, the foundation is actively engaged in fundraising efforts, partnership development, and capacity-building initiatives. The organisation also plans to expand its reach and enhance its services to reach more rescued boys and address emerging challenges in the field.
